

For companies that operate on a worldwide basis are realizing the opportunities offered by globalization and are segmenting production sites and adapting distribution processes; **Air freight**

logistics has become an important factor in supply chain management to keep pace with the changing world market and keep costly backlogs or shortages to a minimum.

UNI International offers competitive rates for all time and cost variants. Our **air freight** network of carefully selected preferred carriers, working together with fixed schedules on all main routes with commercial airlines as well as charter capacity.

All logistics processes from pickup to delivery are supported and controlled. When your shipping needs change, **UNI International** adapts. Our air freight solutions combines the choice of speedy delivery with high value freight, dangerous goods and heavyweight cargo worldwide.

UNI International offers you the greatest choice in transporting complex door-to-door or airport-to-airport shipments.

Chartering additional air freight capacity is part of everyday business at **UNI International**, wherever there is limited carrier airlift. Highly qualified specialists around the globe offer tailor-made solution for your logistics needs.

The alternative to the speed of **air freight** and the lower cost of ocean freight is a combination of both. Customers benefit from our outstanding strength in air and **ocean freight**
