

UNI International can clear your shipments quickly and accurately through its automated electronic interfaces. Shipments can be pre-cleared through Customs before the airplane lands, truck crosses the border or the ocean vessel arrives. UNI International offers complete customs brokerage services throughout the world. With highly experience individually licensed customs brokers, UNI International is recognized to represent importers before federal and national customs agencies. Our other

value-added services include

pre-shipment inspections

at point of origin, preparation and tracking of documentation, temporary import bonds and duty drawback management. We provide special handling for fine arts, antiques, retail merchandise, electronics and other goods subject to specific regulations.
